

8th CAMS Policy User Workshop
Strategic Perspectives for CAMS and EU Policy Issues
Wednesday 28th February 2024
Draft Agenda

Wednesday 28th February 2024 10:00 -16:30 (CET)

- 10:00 – 10:10 Welcome address by our host, the French Ministry of Ecologic Transitions
10:10 - 10:20 Welcome and updates from Copernicus DG_DEFIS (M. Berdahl, DG-DEFIS)
10:20 – 10:30 Setting the scene - Perspectives on the collaboration between CAMS and EU policy making (L. Rouil, ECMWF)

Session 1 – CAMS support for the implementation of the revised Ambient Air Quality Directive

- 10:30 – 10:45 Updates on the revision of the AAQD and expected role of CAMS (F. Wakenhut, DG_ENV. tbc)
10:45 – 10:55 Perspective on CAMS policy products in support of the implementation of AAQD (A. Colette, INERIS)
10:55 – 11:30 Elaboration of **AAQD plans and programmes and reporting under AAQDs**- Experience from countries on the use of CAMS data for these purposes by participants in CAMS National Collaboration Programs (NCPS) and the EEA
- France - Italy -EEA on downscaling
- The Netherlands - Norway
11:30 - 12:00 Panel discussion (7 panelists, those from above, discussion led by L. Tarrason):
- How should CAMS policy products evolve to support implementation of air quality directives?
- What are the main recommendations in term of the further development of products to inform Member States on
o Air quality forecast and short-term measures
o Transboundary contributions
o Natural source contributions
o Background air quality information
o Boundary conditions for plans and programs
o Best practices for air quality assessment purposes

12:00 – 12:15 Coffee Break

Session 2 – CAMS support for the review of the National Emission reduction Commitments Directive

- 12:15 - 12:25 Process on the review of the NEC directive and expectations on CAMS emissions (V. Andre or P. Dilara, DG_ENV, tbc)
12:25 - 12:35 Perspectives on the use of satellite data for emission review: Conclusions from the SEEDS project (L. Tarrason, NILU)
12:35- 12:45 Perspectives on the use of CAMS emissions to support NEC revision (J. Kuenen, TNO)

12:45- 14:00 Lunch Break

Session 3 – Perspectives on Air Quality and Climate

- 14:00 – 14:15 Perspectives on Air quality and Climate from the Air Convention: methane and ozone (Tim Butler, Air Convention, tbc)
- 14:15 – 14:30 Main priorities for regional flagships under the Climate and Clean Air Coalition (Marina Otto, CCAC, tbc)
- 14:30 – 14:45 Priorities on the links between Air Quality and Climate at DG_ENV (T. Henrichs, DG-ENV, tbc)
- 14:45 - 15:00 Priorities on the links between Air Quality and Climate at DG_CLIM (P. Tulkens, DG-Climate, tbc)
- 15:00 – 15:15 Main priorities for the work of Climate and Health observatory and current use of CAMS data (I. Marnane, EEA, tbc)
- 15:15 – 15:30 Perspectives from JRC on the links from air quality and climate change (E. Vignatti, JRC, tbc)
- 15:30 – 16:15 Panel discussion (6 panelists, those from above, discussion led by L. Tarrason):
- How should the CAMS policy products evolve in order to support the current work under on the links between air quality and climate at
 - o Air Convention
 - o CCAC
 - o DG-ENV
 - o DG- CLIMA
 - o EEA
 - o JRC
 - How does the work in these different organizations affect the work of Member States with regard to the implementation of control strategies for air quality and climate changes? What are the main recommendations?
 - Open discussion on priorities with participants in the workshop
- 16:15 -16:30 Conclusions from the meeting (A. Colette, INERIS)
- 16:30 End of meeting**

Note that the planned social dinner will be held together with FAIRMODE on Tuesday 27th February
